**AGENCY PROFILE**

The Washington State Department of Information Services (DIS) provides quality and reliable computing, telecommunications, voice and Internet services to state and local agencies, tribal governments, educational institutions, and not-for-profit organizations.

As the technology leader for Washington State, DIS provides innovative enterprise services so that government agencies can successfully serve the public. DIS also provides support to the Information Services Board.

In its 2007-09 budget, the Legislature directed DIS to build a data center and office building adjacent to the Capital Campus. The office building and state data center are scheduled for completion in September 2011.

**WORKING FOR DIS**

DIS is an agency on the move. With a talented workforce that has a depth of knowledge and understanding of information technology, DIS provides constructive, reliable and responsive services for all their clients.

DIS offers extensive opportunities for career growth and personal development through workshops, seminars, and other training opportunities as well as a tuition reimbursement program and promotional opportunities.

As one of the top ten places in the country for business and careers (Forbes' Magazine, 2007), and conveniently located at the crossroads of business and leisure, Olympia has become the preferred destination zone for business professionals in the Pacific Northwest.

Olympia is on the Puget Sound and is within easy driving distance of the rugged Olympic National Park, the city of Seattle, Mt. Rainier, Mt. St. Helens, and Pacific Ocean coastal beaches: all offering ample outdoor recreation opportunities. Home to an internationally-recognized educational institution and a vibrant arts scene, Olympia is also the location of the outstanding Farmer's Market, located at the downtown waterfront.

## **JOB OVERVIEW**

The Department of Information Services has an opening for a Data Center Hardware Manager to join the Computer Services Division's Facilities Support team.

This position is responsible for managing the Operations, Maintenance and Growth of the electrical and mechanical systems supporting the State Data Center and Node sites, as well as the hardware installation/de-installation needed in the state data center and remote network node sites located around the State of Washington.
